Program Calendar: 2020-2021 Lead LA will launch virtually. A decision to switch to in-person mode will be based on public health guidances/rules from the County of Los Angeles' Department of Public Health and in consultation with the Lead LA 3 cohort to promote the public health and safety of Lead LA participants, their families/colleagues, and the broader Coro community. The calendars are designed to allow for movement from one to another (*i.e. starting virtual and moving to in person and moving back to virtual, or a combination thereof*). **Lead LA participants should be prepared to move between the virtual and in-person calendars throughout the duration of the Lead LA program and commit to the obligations for both sequences.** When and if necessary, Coro staff will do its best to announce movement between the in person and virtual calendars as far in advance as possible.

Attendance Policy: Coro uses experiential learning methodology; you will not learn from the cohort and the cohort cannot learn from you if you are not present. Arriving late/leaving early from sessions is counted toward an absence with only four absences permitted (six session absences with the virtual calendar). The entire Program Orientation and Opening Retreat is required (no arriving late/leaving early). Issue Days include additional hours planning with team and three, 2-to-3 hour meetings with the Lead LA program faciliator (scheduled based on team and faciliator availability). Expect additional hours for pre- and post-assignments, Open Sessions, and other (optional) events. Attendance during virtual sessions includes active, alert participation and as often as possible keeping the participant's camera turned on.

*The virtual Logic Study and Issue Days will consist of interviews and other digital "Explorations" scheduled based on stakeholder availability on the dates indicated. These "Explorations" will occur during regular business hours and are intended for subsets of the cohort. The cohort will make determinations of which subsets will engage with which exploration component as presented during Sessions 1 of the virtual Logic Study and Issue Days. Each participant should engage with at least one of the exploration components, but should not engage with all of the exploration components.
