

# Program Benefits Guide

Developing stewards to nurture resilient communities

## Benefits of Coro Training

### Experiential & Immersive

Hands-on activities merge theory with practice, build skills, and foster a growth mindset.

### Cohort-Based

Connect with professionals from diverse backgrounds to learn from multiple perspectives.

### Time-Tested Skills

Coro offers unparalleled expertise in leadership development with over 65 years of experience.

### The Impact

93% of recent CRLN participants say they are likely to collaborate professionally with their cohort peers.

## Benefits of CRLN

### Enhances Work

- Provides tools for tackling climate change and environmental resiliency adaptive challenges
- Builds supportive cross-sector network of peers to boost confidence and deepen growth
- Facilitates access to regional decision makers

### Deepens Knowledge

- Explore complex environmental issues facing LA County, putting tools gained to practice
- Prepare Impact Projects to develop collaborative approaches to addressing climate challenges
- Connect with multi-sector & issue-area experts

### Develops Skills

- Foster professional advocacy, via effective communication, negotiations, group dynamics
- Develop leadership & climate resiliency self-awareness
- Promote change with adaptive leadership frameworks, coalition building, and place-sourced practices

### Grows Networks

- Over 15,000 Coro alumni nationwide
- The 2024 inaugural CRLN cohort included almost 30 cross-discipline climate professionals
- 100% of recent CRLN participants agree that the program expanded their professional network

"Coro's thoughtful cohort selection, skillful facilitation, and insightful curriculum contributed to an incredible cohort and community-building experience that I will continue to cherish long after the conclusion of this program. I am so grateful for being able to participate in this incredibly worthwhile experience."

**Anna Brockway**  
*Senior Advisor, Climate Adaptation and Resilience Planning*  
 Southern California Edison

## Select Past Participating Organizations\*

### Ideal Candidates

- work, live, or serve communities in LA County.
- have direct experience in climate resilience advocacy, climate change action, environmental protection and justice, clean energy transition, community development, water solutions, land management and conservation, or related fields.
- are eager to explore ways to build a climate resilient Los Angeles.
- are committed to deepening their leadership capacity with a cohort of peers.
- believe that addressing climate change and cultivating ecological resilience requires cross-sector collaboration.

### Program Components

- **Opening Retreat:** Fosters self-reflection and deep thinking, setting the stage for Coro's approach to learning.
- **Leadership Forums:** Facilitated leadership development sessions co-designed by ARLA and Regenesi, focused on living infrastructure, Los Angeles as a living system, place-sourced practices, public narrative frameworks, regenerative approaches, and more.
- **Cohort Project:** Cohort-led exploration of climate challenges to stretch your leadership development, leverage the peer learning environment, and lean into impact.
- **Closing Symposium:** A post-program forum that reunites the cohort for guided reflection and mutual support after a period of real-world, practical and theoretical application of learning.
